## **ELECTRIC VEHICLE CHARGING**

Due to the forward thinking of Neil & Mary Gourlay, Three Glens House is proud to offer complimentary electric vehicle charging to our house guests.

Three Glens House has a ChargeMaster Homecharge Type 2 Tethered system.

You can also plug into a normal household socket in the garage.

**Charging method is dependent on vehicle make & mode - see list on next page**

With nearly thirty different electric models available in the UK, over 60,000 registered EVs on UK roads, and a growing public charge point infrastructure of over 3,800 locations, 2016 onwards is a great time to go electric.

Here are a couple of websites to help plan your journey to Three Glens House
